Do you care about your local river? Donna Weiner is a PhD researcher at Mary Immaculate College seeking to understand your views about your local river. Please help by accessing <https://bit.ly/3nT6uQF> and completing this small online survey called **Connections, concerns and caring for your local river**. The survey takes about 10-12 minutes to complete and is part of a larger study called CSI-Rivers which aims to empower individuals and communities to improve the health of their local rivers and streams by engaging in water and nature-focused citizen science initiatives that can benefit the natural landscapes as well as the individuals who participate and their communities. Participation is voluntary, and all data is entirely confidential and anonymous.

Offertory Collection last weekend amounted to €817. Many thanks.
